

imag product: PLL LED lamp - 2G11

Product Model: imag-8W-2G11-217MM-SMD3528-N126-L7-1G

Product description and application

The 2G11-SMD3528 LED lamp has a 2G11 lamp base, it can replace conventional PLL tube. It is built with Aluminum+PMMA, widely used for general lighting.

Benefits (Compare to traditional PLL lamps)

- Reduce energy consumption
- Less maintenance required
- Can use existing fixture
- Instant brightness
- No flicker
- Simple installation

Features

- High efficacy
- Long life span
- Universal voltage inputs
- No-flicker start
- High luminous output
- Standard PLL size

8 W	50,000 hours lifespan	SMD 3528 LEDs
85-265 VAC	CE RoHS COMPLIANT	2G11

Application

- General lighting
- Office lighting
- Shop lighting
- Corridor lighting
- House lighting
